Introduction

SmartTAP 360^o is AudioCodes flagship for enterprise compliance-recording, allowing companies to capture and index any customer or organizational interactions across both external and internal communication channels.

AGAT Software has joined powers with AudioCodes to integrate our Recording AI Compliance Analysis solution together with SmartTAP 360^o.

Ethical Wall

Restrict communication participants, and control or block specific options such as chat or file/screen sharing, between different users. Granular control is offered based on groups, domains and users and applied dynamically based on the context of the communication. Specific policies can be applied to chat, teams and meetings depending on participant type (Employee, external or guest).

Advanced Data Loss Prevention

SphereShield provides DLP inspection for Audio, Video (using OCR), Messages and Files that alerts on violations to both compliance officer and user performing the action. Configure rules from a pre-defined list or build custom Easily integrates with leading DLP vendors: Symantec, McAfee, GTB, ForcePoint, Google and Fidelis.

The most advanced AI for transcript and analysis

SphereShield can transcribe to 70+ with automatic language detection and speaker enumeration (Who said what and when). OCR detects and transcribes text captured from video and/or screen sharing.

What is more, users can get advanced AI Insights that can detect emotions such as joy, sadness, anger or fear. Also detect positive or negative sentiments.

Video scenes are automatically created as well as labels & keywords

Search And Export Information Easy And Fast With eDiscovery

SphereShield's advanced eDiscovery module offers a search by text, user, audio transcript, files and chat content, dates and more. Users can see messages, transcript and file incidents in contextSphereShield can also be integrated with existing eDiscovery solutions.

Support Compliance regulations

As one of SphereShield's main purposes is to help businesses stay compliant with diverse regulations, our solution addresses regulations such as: MiFID II, HIPAA, FINRA and more.

COMPLIANCE
